FISCAL IMPACT STATEMENT

LS 7812

BILL NUMBER: SB 504

NOTE PREPARED: Apr 1, 2005

BILL AMENDED: Mar 31, 2005

SUBJECT: School corporation public works projects.

FIRST AUTHOR: Sen. Hershman

FIRST SPONSOR: Rep. Thompson

BILL STATUS: CR Adopted - 2nd House

FUNDS AFFECTED: X **GENERAL**
DEDICATED
FEDERAL

IMPACT: State & Local

Summary of Legislation: *Cooperative Purchase Agreements:* This bill authorizes the governing body of a school corporation to enter into a public works contract by a competitive sealed bidding process through a multistate cooperative purchasing program.

Guaranteed Savings Contracts: It includes water and wastewater under the guaranteed savings contracts and utility efficiency programs that may be used by local units of government to reduce consumption costs or to provide billable revenue increases.

Effective Date: July 1, 2005.

Explanation of State Expenditures: *Cooperative Purchase Agreements:* Current law requires the state Attorney General to review cooperative agreements between the state, political subdivisions and other entities. The number of agreements would probably be small and any impact on expenditures could be covered under the existing level of resources for the Attorney General's Office.

Explanation of State Revenues:

Explanation of Local Expenditures: *Cooperative Purchase Agreements:* The bill should reduce the cost of the school for the public works projects. It is assumed that there is some saving when the school joins the multistate cooperative purchasing program.

Guaranteed Savings Contracts: Current law allows local units of government to enter into a utility energy

efficiency program or a guaranteed energy savings contract with a qualified provider to reduce the unit's energy consumption costs or operating costs if the savings due to an improvement will cover the costs of the improvement. This bill will allow the same to be done for projects that will reduce water usage and consumption costs. It also will allow local units to enter into efficiency programs or savings contracts to provide billable revenue increases.

Local units of government would not only be able to pay for additional conservation improvements with cost savings but could also experience those cost savings after the improvement is paid in full. The fiscal impact of this bill is dependent on local action

Explanation of Local Revenues:

State Agencies Affected: Attorney General.

Local Agencies Affected: School corporations, libraries, and political subdivisions.
